T25208

Specifications

- **Cabinet Color**
  Eastern Metallic Silver.
- **Dimensions: 24¼" W, 19½" D, 23¼" H**
- **Approx. Shipping Weight: 75.9 Lbs.**

Remote

- **TV/VCR Remote**
  CRK76TY1

Picture

- **181-Channel Tuning Capability[1]**
  Digitally controlled frequency synthesis tuning system "locks on" to cable and standard signals with unsurpassed accuracy.

Sound

- **Front-Fired Twin Speakers**
  Two front-fired drivers provide imaging while localizing voices at the screen.

Convenience

- **Trilingual On-Screen Display**
  Allows the on-screen menu system to be displayed in one of three languages (English, French, or Spanish).
- **On-Screen Menu System**
  On-screen displays make it easy to adjust most picture, sound, and convenience features from the remote control.
- **Caption Vision CC Closed Caption Capability[2]**
  Assists the hearing impaired, helps children learn to read, and aids in the teaching of English as a second language. Built-in Closed Caption Decoder displays the audio portion of a program as text on the TV screen (when program is aired with the encoded signal).
- **Advanced Auto Channel Search**
  The system automatically scans for and locks active channels into channel memory.
- **Programmable Timer System**
  Convenient scheduling system can be used in a variety of ways:
  - **Sleep Timer**
    Automatically turns off the TV after a preset time period — for those times when you drift off to sleep in front of the television.
  - **Alarm Timer**
    Wake up to your favorite morning show or turn on your television automatically to catch your favorite program.
- **Auto Clock Set[3]**
  The Auto Clock Set[3] circuitry reads the XDS broadcast signal containing time of day and date information, automatically setting the clock during initial setup as well as after most power interruptions.

VCR Capabilities

- **2-Head VCR with 26/32 Micron Head Design**
  The performance of VHS equipment depends in part on the magnetic head design, which is responsible for recording and playback. Economical 2-head designs featuring 26/32-micron head design provide a balanced quality for recording and playback of VHS tapes in both the SP and SLP speeds.
- **8-Event/1-Month Programmable Timer**
  The built-in timer memory can be preset up to one month in advance to record as many as eight different programs automatically.
- **Real-Time Counter**
  Displays exactly how long the tape has played or recorded to make locating segments easier.
- **Auto Power On, Auto Play, Auto Rewind**
  Simply inserting a cassette in the VCR turns it on (Auto Power On). When a prerecorded cassette is inserted in the VCR, it automatically starts to play (Auto Play). When the end of the tape is reached, Auto Rewind automatically rewinds the tape.
- **Digital Auto Tracking Plus**
  Combines the best performance of an automatic tracking scan system, which automatically "locks" on the best signal. Manual up/down tracking is sometimes preferred when rental tapes have been damaged or recorded on older recorders with tracking out of adjustment.

Connections

- ➤**Front and Rear Audio/Video Inputs**
  Allows quick, easy access for direct audio and video connections for additional VCR, video game or video source. Also rear audio output (mono).
- **Headphone Jack**

Plus

- **Limited Warranty**
  – 90 days for labor charges.
  – One year for parts.
  – Two years for picture tube.
  – See RCA dealer or visit www.rca.com for complete details.

1 Check your cable company's compatibility requirements.
2 This television receiver provides display of television closed captioning in accordance with §15.119 of the FCC rules. This television receiver does not support color attributes of television closed captioning.
3 Subject to availability based on local off-air and cable broadcasts.
